---

**I am a passionate Frontend Developer and B.Tech student at Ajay Kumar Garg Engineering College with a strong fundamentals in Data Structures & Algorithms and Web Development . With hands-on experience in building modern websites using HTML , CSS , and JavaScript . I have created multiple projects like Spotify and RazorPay clones. I'm also skilled in Git, GitHub, Java, and Python, and always eager to learn and grow in the tech industry.**

---

# PROJECT

- **RAZORPAY CLONE**
  - I use html and CSS to build only the frontend part of this website. Improved HTML5 semantic structure, CSS flexbox & grid usage, and design replication skills.
  - I also use Tailwind CSS which is a very popular framework of CSS.

- **PARALLEX WEBSITE**
  - Using html and CSS I made a parallex scrolling effect in this website.
  - Multiple background images with parallax scrolling.
  - Layered content sections with smooth transitions.
  - Sticky navigation for enhanced UX.

- **PASSWORD GENERATOR**
  - I created a password generator website using html, CSS and JavaScript which generate random passwords including special character , numbers and alphabets .

---
